II. Motivation workshops	<b>4</b>
III. Awareness raising on environment protection	<b>5</b>
IV. Rural Composting Scheme	<b>11</b>
V. Monitoring and support	<b>14</b>
VI. Final Event	<b>15</b>

# Project Description

## The overall objective

to contribute to improving the environment in rural communities & supporting rural development.

### Specific objectives:

- Protection of the environment
- Development opportunity in agriculture

## Two main components

- Establishing an innovative organic composting scheme in rural communities of the Municipality of Tirana. Motivate local households and small farmers to participate in a local composting scheme. Further on enabling and supporting them to collect and compost their organic waste which will be used as an organic fertilizer. It will help to reduce waste and enhance the fertility of the land.
- Raising awareness of the population in these rural communities of environmental protection issues and how local initiatives can positively improve the environment in their local communities.
